Subject: WHEN WILL QUIT WASTE TAXPAYERS MONEY AND END THIS GAME

i do not owne any stock in miscrosoft but i feel this legal drag on microsoft
has gone enough with no one benefiting at all
only remedy is money so why not agree to number and wrap this
hell we are sick and tired of it and i will still use microsoft so what
is gained from something old like this case
microsoft has agreeded to admit some fault and will pay for it
what else can you get nothing but waste alot of tax payers money
you can't brake it up for appeal court said this already
i just find it strange that we are a real bad recession and you are
going after the engine in the car
without microsoft there is no recovery and you will see real defeicts
we can not afford another 2001 but unless this is not settled and quicly
then we will
mr. bush has already said he wanted closed quickly
now please end this game we have enough problems then the ego game
by 9 district attorneys who are only looking for policial gains only
thank you
george g. dingoian
